

Clean & Disinfect

ALL SURFACES

D10 Pro-Clean

Contains a powerful Biocide and Viricide to eliminate bacteria and viruses

Effective sanitising even when heavily diluted

Safe for use in food prep areas

Reduces cross-contamination in hospitals, schools, institutions and industry

1Ltr & 5Ltr

Specially developed to provide a 'one stop' cleaner. Containing a powerful biocide and viricide package which eliminates bacteria and viruses including Legionella, Hepatitis and HIV. Also contains bacterial effectiveness against gram positive and negative organisms.

It offers effective cleaning and sanitising even when heavily diluted and can be used for hard flooring and walls, kitchen and food prep areas, hospitals, nursery and care homes and machinery. Does not harm textiles and fabric unlike bleach and is water based and biodegradable.

Instructions for use:
Spray area to be cleaned
Allow product to work
Wipe area with a damp cloth
