

# Monsoon

## Purifying Treatment for Interiors and Filters - NO BIOCIDES

**MONSOON** is a large-scale purifying and perfuming treatment, useful for purifying filters and perfuming large environments. Its powerful spray energetically spreads the fragrance on the surfaces and among the filter textures. The fragrances selected by Errecom have great persistence and guarantee a long life.

**MONSOON** is available in the three fragrances Lemon, Mint, Pure and No-Odor.

**Instructions:** shake the cylinder and spray the product with short pressures on the button. In order to clean and perfume the filters, concentrate the supply on the affected area.
