

Technical Data Sheet

Brightfoam Condenser Cleaner & Sanitiser

Brightfoam is a very powerful alkaline detergent/sanitiser designed for the heavy duty cleaning of condenser coils, it's unique formulation cleaning even the most stubborn baked on deposits.

- Powerful
- Removes burnt on deposits
- Excellent sanitiser
- Highly concentrated
- Fully biodegradable

It is also safe to use on equipment found in the food processing industry. It quickly removes oils, fats, grease and "burnt on" deposits from a wide range of substrates including concrete, metal, plastics and ceramic surfaces. The powerful cleaning ability of Brightfoam is combined with a bactericide which also means it has excellent sanitising properties.

Directions for use:

Mix Brightfoam with 3 parts water. Spray on to the coil with a low pressure sprayer working from a bottom corner moving across and up. Cleaning is more effective if the coil is warm or Brightfoam can be used with hot water. Allow to penetrate for 5-10 mins then rinse well with clean water.

Always wear the correct Personal Protective Equipment.

PHYSICAL PROPERTIES

Physical state: Liquid
Appearance: Red liquid.
Colour: red
Odour: characteristic.
pH: ~ 13
Flammability (solid, gas): Non-flammable.
Density: 1.14 g/cm³
Solubility: soluble in water.

Hazard statements (CLP):

H314 - Causes severe skin burns and eye damage.

H373 - May cause damage to organs through prolonged or repeated exposure.

H412 - Harmful to aquatic life with long lasting effects

Precautionary statements (CLP):

P260 - Do not breathe vapours

P264 - Wash hands thoroughly after handling

P273 - Avoid release to the environment

P280 - Wear eye protection, protective gloves

P301+P330+P331 - IF SWALLOWED: rinse mouth. Do NOT induce vomiting

P303+P361+P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower

P304+P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing

P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing

P310 - Immediately call a doctor, a POISON CENTER

P314 - Get medical advice/attention if you feel unwell.

P321 - Specific treatment (See supplemental first aid instructions on the label).

P405 - Store locked up.

P501 - Dispose of contents/containers to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation
