

C28B

Crankshaft-driven
 Cordless Cleaning Machine

Industrial Grade Mobility Cleaning

Dual cleaning pressure (7/20bar) for optimal flexibility to meet the different occasions.

Crankshaft-driven pump with ceramic-coated pistons for long service life.

Large oil level sight glass, easily accessible to check oil status, and ready for oil change in time for maintenance.

Li-ion battery powered, get rid of site power limitations.

4.5 L/min

6 mainstream
brand battery

C28B

Crankshaft-driven
 Cordless
 Cleaning Machine

C28B is a professional cordless high-pressure equipment, special design for HVAC cleaning industry, it has a crankshaft-driven pump with ceramic-coated pistons for long service life, allowing it to work continuously. With its 2 adjustable working pressure from 7/20bar for optimal flexible cleaning, it is able to remove the most dirt from condenser & evaporator coils without damaging these sensitive fins. Using an 18V Li-ion battery for power supply means there is no need to search for AC power sources everywhere, especially when cleaning outdoor air conditioning units. In addition, in order to maximize the utilization of existing Li-ion batteries in users' hands and reduce their purchasing costs, we have specially developed 6 mainstream brand battery adapters (Bosch, Makita, Panasonic, Dewalt, Worx, and Milwaukee), which can easily be compatible with the use of the above brand batteries.

Technical Data

Model	C28B	
Voltage	18V(AEG/RD/GID interface)	
Working Pressure	7/20bar	
Flow Rate(Max.)	4.5 L/min	
Output Power	1/2-HP	
Weight	5.0kg	
Water Pipe	2m inlet hose, 7m outlet Hose	
Reference Running Time	30-45min(18V/9.6Ah)	
Remarks	Due to the strict transportation terms, we can not include any Li-ion battery, you can choose our battery adapters for use your own batteries.	
Packing	Carton:1pcs
